### Our Washington Special.

(From Our Regular Correspondent.) WASHINGTON Feb. 14, 1885.

The city congealed in arctic weather is making preparation for the coming event, the 4th of March. The Democrats are preparing for a great demonstration and the Republic as are prepar-ing to grin and bear it. Hotel and boarding house keepers are pre-paring to pack their guests like sardines in a box, and various military and civic organizations are proparing to entertain their brethren from abroad. President Arthur is preparing to vacate the White House to the political successor of James Buchanan and Messrs Blame, Reed, Hoar, Sherman, ET AL may be preparing for death, they are not preparing to admit that the war which their malice and ambition has prolonged for twenty years beyond its heroic term is now a thing of the past. scriety, also, is preparing to reconstruct itself on different lines and different women. The Freling-huysen,s, Blaine's, Brewster's. Chandler's, with their sattelites and parasites will go. The new society, I imagine, will be composed in part'of the ANCIENT REGIME the old residents, who have lived the old residents who have lived in seclusion during the long ascendancy of the light fingered vandals of the Grant era and the psalm singing hypocrites of the Hayes usurpation. The so cial tone will depend much on the Cabinet of Mr. Cleveland, for society here takes its cue and hue, to a great extent, from those high in office. It is the general impression that the next will be a working administration, it certainly has a task before it, and it would not be suggestive of work to see the houses of the Thurman's Bayard's, and Garland's of the next administration given over to mid-nights revels, as has been too much the case of late years in Washington.

An extra session of Congress is thought to be very probable, but whether there is an extra session or not there will be something going on here after the fourth of March. It is not expected that one hundred thousand office holders will be immediately turned out. But a new Cabinet with new Chiefs of Bureau, new chief clerks, and new foreign ministers will be appointed with as little delay as possible. There will be some fifty thousand Postmasters to appoint, and a general and judicious cleaning out of the idle, incompetent, superanuated and incompetent, superanuated and the merely political rats and barnacles who have in ustriously

lie treasury for years, and years.

Many clerks in the departments have been trying to have their papers, which show that they were reccommended by prominent republicans, with drawn from the files. Secretary McCulloch, however has denied proposes to turn over the files of the Trensury Department intact. This, of course, is right, and nothing more. If a clerk has been reccommended by Sanata been reccommended by Senator Kellogg of Louisiana, Mr. Blaine or Senator Hoar, for no better reason than that he is a republican, and has done political work for his patron, it is of interest to the country and to the coming administration to have it on record. When an examination of the appointment files has been made it will be found that a majority of the male employees have been appointed for political purposes, and that many females

Republicans to show that the River and Harbor bill this year is an almost unprecedentedly bad one, and that it is the first grab of the Solid South upon the Treasury. As a matter of fact, the Leave Bennetts most indefensible items in the Leave Morven's at bill were those known as the Eads Leave Macfarlan's at appropriations, and these have Leave Cheraw at all been erased. They were Leave Cash's at much more in the interest of Leave Society Hill at Captain Eads than of the Solid Leave Doves at South. The worst River and Leave Darlington at Harbor bill in the country's history was passed by a Repub. lican Congress and vetoed by President Aathur.

It is a good rule to accept only such medicines as have, after long years of trial proved worthy of confidence. This is a Leave Cash's at case where other people's experience may be of great service, and it has been the Leave Macfarlan's at experience of thousands that Ayer's Cherry Leave Morven's at Poctorol is the best cough medicine ever Leave Bennett's at

Ayor's Sarsaparilla is the best medicine for every one in the spring. Emigrants and travelers will find in it an effectual cure for the eruptions, boils, pimples, eczema, etc., that break out on the skin—the effect of disorder in the blood, caused by sea-diet and life on board ship.

densed notes on fashions, art, industries, literature, science, etc., etc., appear regularly.

Few papers in the country are so extensively quoted by the press in general for its bright and humorous paragraphs as the Chicago Daity News. These are all reproduced in the WEEKLY NEWS. In its editorial expression the paper speaks from the standpoint of the INDEPENDENT journalist, thereby escaping the temptation to support or condone the questionable under the pressure of party allegiance. Mere partisan extremists will not like it; the fairminded and thoughtful of all parties will appreciate and value its candid statements of facts and conclusions, all calculated to qualify the reader for the formation of his own intelligent opinion. The political events of the year to come promise to assume such a character that a thoroughly truthful and impartial record becomes all-important rather than a partisan one, colored and perverted to individual liking.
